Andrej Mishev

FULLSTACK JAVASCRIPT DEVELOPER

○ ABOUT ME

I've been passionate about computers from a young age. After two years at the academy, I developed a strong interest in web development, especially JavaScript. I'm proficient in HTML, CSS, JavaScript, TypeScript, Angular, React, Node.js, Express.js, and GitHub. I currently work as a freelance web developer and continuously improve my skills through personal projects. I'm eager to grow further and take on new challenges in the tech world.

○ WORK EXPERIENCE

CNC Operator

2019 – 2024

Freelance Web Developer

2022 – Present

Dear Visitor

- I'm passionate about everything related to computers — from designing logos, digital marketing, Photoshop, and Figma, to both front-end and back-end development. JavaScript is my main focus, but I enjoy exploring different technologies. I especially love working with Angular and would welcome the chance to introduce myself in person.
